

Quality Statement

As hauliers, suppliers and merchants of construction materials, the Company is fully aware of its obligations in respect of providing materials that are fit for purpose under an attestation of performance, or which comply with the relevant UK or EU standard.

Materials will generally be supplied to a recognised BSEN standard that meets the Customer's own specification. Where such specified materials are not available, an alternative will be offered and supplied subject to the Customer's approval.

Where appropriate, materials are subject to a Factory Production Control Protocol and sampling is carried out by a UKAS or similarly accredited third party laboratories as appropriate to the test procedure required.
